## Superiority of Burk Clothir

Unlike the claims of the average clothiers' announcement, is a fact substantiated by proof and strengthened by comparison of appearance, qualities and intrinsic worth. Produced strictly on merchant tailoring lines, highest quality fabrics and linings, highest skill in designing and tailoring under strict supervision and watchful care of the Burk veteran manufacturing superintendents make their telling hits in this peerless clothes production and lift it entirely out of the class generally recognized as ready-made and identify Burk-Tailored Garments with work of finest exclusive custom tailors' product.

By reason of the "MAKER TO WEARER" proposition here in command, Burk clothes cost you no more, actually less than vastly inferior kind elsewhere.

ed preparing their now spring lines, which will be opened, it is stated, on November 12th. According to reports in the secondary market, sharp, advances will be named on many lines of both rugs and curpets. What will be done with regard to ingrain lines is not known, but, it is believed that manufacturers cannot very well demand any advance on these goods, owing 40 the unautafactory situation and the tack of demand for ingrain fabrics.

Pharmaceutical Supplies.

Consul E. E. Young reports that American pharmaceuten products might easily make their way in the markots to and near Harput, Turkey, since the influence of the American missionary schools is of the American missionary schools in the region is occupied by one or more of these physicians. All of them are acquainted with and use American pharmaceuted by the American pharmaceuted by the American colony. A consulting room has been fitted by in content of the city physicians.
